

ACH Authorization Instructions

This document provides an overall view of ACH transactions and outlines the steps required to set up ACH instructions with GovMIC for your use.

It's Easy: You can direct the GovMIC Client Services Group to move funds to or from your GovMIC account, utilizing the Automated Clearing House (ACH) system. An ACH request only requires one communication to the GovMIC Client Services Group. In comparison, sending a Fed Wire to GovMIC requires you to contact both your local bank to initiate the Fed Wire and to contact the GovMIC Client Services Group to receive proper investment credit.

It's Cost Effective: ACH transactions are generally less expensive than wires, sometimes only a few cents versus a few dollars for a wire.

• How to set up a local bank account for ACH Purchases and ACH Redemptions through GovMIC:

You must pre-authorize GovMIC to process ACH transactions against your specific local bank account. To pre-authorize GovMIC, do the following:

1. Complete and forward the *ACH Setup Instructions* Form to the GovMIC Client Services Group via fax at 1-888-535-0120.
2. Notify your local bank that GovMIC will be debiting or crediting your account. If your account has an ACH filter on it, you will need to provide an authorization letter to your local bank.

• The difference between ACH Purchase and ACH Redemption:

- ACH Purchase: the GovMIC Client Services Group will move funds **from** your local bank account **to** your GovMIC account.
- ACH Redemption: the GovMIC Client Services Group will move funds **from** your GovMIC account **to** your local bank account.

• How to initiate an ACH Purchase or ACH Redemption:

1. Online:
 - Go to www.GovMIC.org and select Account Access.
 - Log in using your EON user ID and password.
 - Select TRANSACTIONS, then select INITIATE ACH PURCHASE or select INITIATE ACH REDEMPTION, then select from your list of pre-authorized ACH banking instructions.
